

# 2024 UIC Exhibitor Showcase

Make plans now to visit the exhibit hall and experience the innovative equipment and technologies for the construction, rehabilitation and asset management of the utility infrastructure. Exhibit hall registration is only \$50 and includes the exhibit hall mixers and these special theater panels: NASSCO Safety Panel, the HDD Interactive Hall of Fame Conversations and Women's Careers in Engineering. Don't miss out, register today at [UI-Conference.com](http://UI-Conference.com)!

## ACE PIPE CLEANING INC. ....#544

[www.acepipe.com](http://www.acepipe.com)

Manhole rehabilitation, manholes, coatings, industrial coating, cured-in-place pipe (CIPP) flow monitoring, pipe grouting manhole inspection, pipe cleaning, manhole cleaning, pipe rehabilitation, root control, bypass pumping, sanitary sewer service connections, spray-in-place pipe lining, vacuum excavating, water main cleaning, wet well cleaning, wet well rehabilitation.

## AEGION-INSITUFORM TECHNOLOGIES LLC-UNDERGROUND SOLUTIONS INC. ....#711

[www.aegion.com](http://www.aegion.com)

Aegion continues to advance the pipeline rehabilitation market by offering the latest innovations in cured-in-place pipe (CIPP) technology specifically engineered for drinking water applications. The InsituMain™ System, our showcase CIPP innovation for pressure pipe renewal, is a composite material of polyester fiber, fiberglass, and a specially formulated epoxy resin system.

## AKKERMAN INC. ....#812

[www.akkerman.com](http://www.akkerman.com)

REDEFINING TRENCHLESS SOLUTIONS—Akkerman develops, manufactures and supports advanced

underground construction equipment systems that accurately install pipe in an extensive range of ground conditions and project challenges.

## AMERICAN PIPE SOLUTIONS .....#518

[www.americanpipelinesolutions.com](http://www.americanpipelinesolutions.com)

SmartFoam is a low-risk option for the in-line inspection of pipelines. It combines the benefits of advanced electromagnetic sensors with simple and easy-to-deploy foam pigs. The result is a highly capable in-line inspection tool that can negotiate complex geometry pipelines while inspecting for internal corrosion, cracking, material loss, and more.

## AP SENSING AMERICAS .....#726

[www.apsensing.com](http://www.apsensing.com)

Distributed Temperature (DTS), Distributed Acoustic (DAS), & Distributed Strain (DSS) sensing technology utilizes a standard fiber optic cable as a linear sensor over a long distance, capturing real-time data from temperature, vibration and/or strain changes. Classification algorithms detect and locate events including leaks, cable fault, and intrusion.

## AQUASOL CORPORATION .....#519

[www.aquasolcorp.com](http://www.aquasolcorp.com)

AquaSol Corporation provides the horizontal boring, water well, and mining industries with high-performance NSF-certified products. AquaSol products have stood the test of time in the harshest conditions. AquaSol's bio-based polymers are used for fluid loss, shale inhibition, and rheology management and can be customized to meet our customers' needs.

## AVANTI INTERNATIONAL .....#815

[www.avantigrout.com](http://www.avantigrout.com)

### AV-100® Chemical Grout

AV-100® Chemical Grout (Acrylamide Grout) has a successful track record spanning over 50 years in eliminating infiltration and stabilizing soils. Renowned for its exceptional strength and durability, AV-100 is the go-to solution for mitigating water infiltration in a wide range of underground structures, including manholes, mainlines, laterals, lateral connections, tunnels, mines, and more.

## BROWNLIN USA INC .....#613

[www.drillguide.com](http://www.drillguide.com)

Brownline's Drillguide Gyroscopic Steering Systems integrate highly stable and accurate True North seeking fiber optic gyroscopes and specialized software which are not affected by outside influence. The systems can be operated independently, or equipped with the Drillguide Radar Systems for the performance of hole-to-hole intersect and secondary tracking operations.

## BUCKHORN PUMPS INC .....#515

[www.buckhornpumps.com](http://www.buckhornpumps.com)

## CARBOLINE .....#725

[www.carboline.com](http://www.carboline.com)

Hydroplate 6500 is the premier epoxy lining for concrete and steel in aggressive wastewater environments. Its ultra-durable, high-build design and single-leg application provide outstanding longevity, low permeability, and superior chemical resistance. It achieved excellent ASTM G210 results, complies with AWWA C210, and offers a return to service of 10 hours.

## CCI PIPING SYSTEMS .....#706A

[www.ccipipe.com](http://www.ccipipe.com)

WrapidSeal™ manhole encapsulation system consists of an engineered primer and a unique, wrap-around, heat-shrinkable sleeve designed specifically to seal joints and prevent groundwater from entering a collection system. WrapidSeal™ can be utilized on both new construction and rehabilitation of existing manholes.

## COMPOSITE ACCESS PRODUCTS (CAP) .....#706B

[www.justcapthat.com](http://www.justcapthat.com)

CAP's affordable, traffic-rated, composite manhole cover and frame assemblies resist H2S corrosion, reduce inflow, contain odor, are 60% lighter, and remove

# UIC Exhibitor Showcase

the cause of manhole cover theft – scrap iron. Installing CAP assemblies is faster, safer, less costly, and easier. Use less labor to set manholes and more to lay pipe.

**COSMIC ENGINEERING .....#927**  
www.cosmic.at

Cosmic is a leading innovator in UV-cured products. For decades, our lateral connections seals, trademarked as "Tophat," have set us apart in the industry. We offer UV-cured short liners, also referred to as spot repairs. The GRP, or glass fiber reinforced pipe, allows for multiple facets to repair issues.

**CPM PIPELINES .....#800**  
www.cmpipelines.com

Delivering innovative, best-in-class products and services unmatched in the industry for clients looking to proactively maintain and extend the life of their critical infrastructure. We are solution-driven, working with our partners to understand their unique needs related to extending the useful life of critical assets, while protecting our natural resources.

**DANBY LLC .....#619**  
www.danbypvclining.com

Danby is a grout-in-place PVC liner used in rehab of pipes > 36" and any shape structure; arch, round or box shapes. Also used in precast pipe and cast-in-place structures. A structural solution designed for 50+ years of life, H2S protection and improving hydraulic performance with minimum loss of diameter.

**DIGITAL CONTROL INC .....#919**  
www.digitrak.com

The TeraTrak R1 is a topo mapping tool that produces full, achievable bore plans that help drillers work faster and safer. How? By taking hyper-accurate topography readings and combining them with infrastructure locations and waypoints, the R1's algorithm produces a rod-by-rod plan. Simply put, it does the math for drillers.

**DRILRITE CHEMICAL .....#506**  
www.drilrite.com

We provide the most economical solutions for your drilling fluid product and service needs. We are a small, privately owned business with the right connections to the right suppliers. Our low overhead makes the difference in your increased profits.

**DSI UNDERGROUND .....#516**  
www.dsitunneling.com

**E&M SUPPLY GROUP .....#606**  
www.drillpipesupply.com

E&M sells drill pipe, non-mags, and subs. We carry all sizes for all rigs. Our specialty is 31' drill pipe for maxi-rigs, and we maintain the largest inventory in the industry. Come by our booth to meet our team and pickup a copy of our current inventory.

**ECOSOLIDIFY .....#526**  
www.ecosolidify.com

Eco-Solidify is a liquid and sludge solidification agent that blends wood sawdust and super absorbent polymer in

granule form. This product is fully accepted in landfills, and its categorization as clean fill depends on the nature of the liquid waste. With an absorption ratio of up to 300:1 and expansion < 2%, Eco-Solidify empowers customers to solidify larger amounts of drilling mud and liquid waste using minimal product.

**EGW UTILITIES INC. - UTILITY SOLUTIONS GROUP .....#505**  
www.egwutilitiesolutions.com

Take no risk; get it mapped! Reduct gyroscopic mapping tools are passed through your pipe/duct, resulting in a 3D XYZ as-built map that can be immediately uploaded into any GIS-platform, as well as highly accurate bend radius and inclination measurements.

**GEOPHYSICAL SURVEY SYSTEMS INC. (GSSI) .....#804**  
www.geophysical.com

Meet Flex NX®, the industry's most powerful and efficient concrete scanner. The two data collection modes will lead to streamlined testing for structural safety and simplify concrete scanning. Two wireless antennas offer greater flexibility for challenging job sites, as well as a host of other technological advancements that redefine the scanning workflow.

**GEORGIA UNDERGROUND SUPERSTORE .....#702**  
www.georgiaunderground.com

The Plumett MiniJet™ is highly effective, and significantly increases daily production. The belt-drive system ensures excellent cable grip without damage, and the clamping system absorbs cable diameter tolerances. In addition, its advanced design and construction improve installation performance. Its components are selected and manufactured to meet the highest requirements.

**GP RS .....#402**  
www.gp-radar.com

**GREAT PLAINS KUBOTA .....#827**  
www.gpkubota.com

Discover GP's inventory of Kubota tractors, mowers, construction equipment, hay tools, and turf. We also offer Vermeer hay equipment, Land Pride implements and attachments, and Great Plains Mfg. tillage equipment, as well as Toro and various ranching equipment, such as Arrowquip.

**HARDROCK INFRASTRUCTURE SERVICES .....#612**  
www.hardrockis.com

HardRock is a leading provider of horizontal directional drilling (HDD) services. We provide a comprehensive range of services, including pre-bore profiling, bore design and utility infrastructure installation.

**HDD TECHNOLOGY, LLC DBA ADTECH MOTORS .....#503**  
www.adtechmotors.com

**HERRENKNECHT TUNNELLING SYSTEMS .....#502**  
[www.herrenknecht.com/en/](http://www.herrenknecht.com/en/)

E-Power Pipe® is used for the trenchless installation of small-diameter product pipes at shallow depths. Over long distances of up to two kilometers, both pressure-resistant and non-pressure-resistant product pipes are installed quickly, safely and precisely. The two-stage process integrates aspects of the proven horizontal directional drilling (HDD) technology and pipe jacking (microtunnelling).

**HI-VAC CORPORATION .....#916**  
[www.hi-vac.com](http://www.hi-vac.com)

Hi-Vac's X-Vac vacuum excavators have the power and payload to tackle any job, with capacities from agile medium-sized to extra-large. Units share easy all-weather operation, speed of debris offloading, and a focus on operator safety. Pick from an extensive options list to create the truck that fits your specific needs.

**HOBAS PIPE USA .....#716**  
[www.hobaspipe.com](http://www.hobaspipe.com)

Hobas Pipe USA, Inc. fiberglass reinforced polymer (FRP) products are manufactured for pressure and gravity applications, serving the

water, wastewater and power markets. Pipe sizes from 12" to 126" diameters with working pressures to 450 psi. Hobas manufacturing capabilities include structural circular and non-circular pipes, manholes including fittings, standard and custom designs, like tees, reducers and bifurcations.

**HTS PIPE CONSULTANTS .....#627**  
[www.htspipeconsultants.com](http://www.htspipeconsultants.com)

HTS Pipe Consultants is a materials-testing and consulting firm specializing in cured-in-place vinyl ester, polyester, epoxy and glass fiber-reinforced resins. Services include the determination of flexural and tensile strength, flexural creep and chemical-resistance properties. All testing is performed in accordance with ASTM, Greenbook and ISO standards.

**INDUMAR PRODUCTS INC. ....#715**  
[www.indumar.com](http://www.indumar.com)

For 38 years, InduMar has provided problem-solving solutions to the oil & gas industry through use of advanced materials, composites, and technologies. For piping, tanks, pressure vessels and infrastructure in both upstream and downstream production, innovative repair solutions address leak sealing, mechanical reinforcement, wear resistance, chemical resistance and corrosion control needs.

**INNOVATIONS AMPLIFIED .....#803**  
[www.innovationsam.com](http://www.innovationsam.com)

**INROCK .....#709**  
[www.inrock.com](http://www.inrock.com)

Inrock provides the following: standard P2 guidance services, gyro guidance services, drill bits (MT, PDC, TCI, HDX), mud motors, XTH hammers, XTR-W reamers, XTR reamers, MXR reamers, PDC reamers, XTR-S and XTR-L reamers, split bit reamers, cross-view rig monitoring system, safety tongs, DCD swivels, geo-tech analysis and time/cost estimates.

**INTELLISHIFT .....#806**  
[www.intellishift.com](http://www.intellishift.com)

IntelliShift is powerful fleet intelligence made simple. Designed to solve safety and operational challenges, it is the solution that enables businesses with fleets of vehicles and heavy equipment to easily access all fleet operations data in a single platform. Consolidate your fleet management tech stack to combine telematics, AI dashcams, inspections, maintenance, compliance, and powerful analytics. Get unbeatable ROI.

**INTERPLASTIC .....#626**  
[www.interplastic.com](http://www.interplastic.com)

ONestep™ CIPP resin system is a patented system designed to be a simpler, safer process with a single liquid initiator. ONestep benefits include

labor savings, safety benefits, no need for mixing a dust or flake, requires no heating and its working time minimizes premature liner gelation.

**J. FLETCHER CREAMER & SON INC. ....#623**  
[www.jfcsn.com](http://www.jfcsn.com)

J. Fletcher Creamer & Son, Inc. continues to be a leader in trenchless pipe rehabilitation. We currently offer numerous solutions for potable water, wastewater & other asset rehabilitations. Leaning on over 100 years of experience, we have the resources and know how to get the job done.

**LADTECH INC. ....#706C**  
[www.ladtech.com](http://www.ladtech.com)

Our adjusting manhole rings and catch basin systems are made from 100% recycled HDPE and sealed with butyl rubber sealant. The joints between the cone, risers, frame, and cover are resistant to heavy traffic and weight load. The traffic load rating also ensures that traffic impact will not compromise the performance of your system, eliminating one of the major sources in system-wide Inflow and Infiltration.

**LOGAN CLAY PRODUCTS LLC. ....#707**  
[www.loganclay.com](http://www.loganclay.com)

NO-DIG jacking pipe from Logan Clay Products is preferred for Pilot Tube Method of Guided Boring installations. Vitrified clay jacking pipe provides unsurpassed axial strength of 18,000 psi and greater. VCP-J eliminates the need for a casing pipe that remains in the ground. See a sample in booth #707.

# UIC Exhibitor Showcase

**MADEWELL PRODUCTS CORP. ....#718**  
[www.madewell.net](http://www.madewell.net)

The Mainstay Composite Liner is a rehabilitation system consisting of a high-strength restoration mortar and an epoxy corrosion barrier coating that are applied and cure simultaneously to repair and protect underground infrastructure. The mortar and topcoat become tightly bonded not only to the substrate, but also to each other.

**MCCAIN WATERWORKS MARKETING .....#808**  
[www.mccainwaterworks.com](http://www.mccainwaterworks.com)

**MCELROY MANUFACTURING INC. ....#601**  
[www.mcelroy.com](http://www.mcelroy.com)

**DataLogger® 7**  
 Capture the most important data from your fusion job site – no matter how long the workday. The DataLogger 7 delivers increased battery life, automatic data backup, an updated Android operating system, and more, in a new, IP68-rated and MIL-STD-810 tested, rugged touchscreen tablet.

**METAFL0 TECHNOLOGIES INC. ....#819**  
[www.metafotech.com](http://www.metafotech.com)

**OKIE811 .....#802**  
[www.okie811.org](http://www.okie811.org)

**OMEGA LINER COMPANY INC .....#825**  
[www.omegavvpipe.com](http://www.omegavvpipe.com)

The Omega UV Liner is constructed with ECR (corrosion-resistant) fiberglass and advanced UV resins – proven to be one of the strongest on the market. Omega Liners are manufactured using unsaturated polyester or vinyl ester resins for environmentally conscious projects and are offered from 6" (150mm) to 66" (1675mm).

**PICA CORP .....#609**  
[www.picacorp.com](http://www.picacorp.com)

RFT tools are used to inspect metallic pipes by using high-resolution electromagnetic technology to create an energy field that passes through the pipe to measure the thickness of the pipe wall. The information is then used to create a detailed mapping of the cylinder.

**PLUMETTAZ AMERICA CORP. ....#818**  
[www.plumettaz.com](http://www.plumettaz.com)

Plumettaz will be showcasing various underground installation tools/equipment. One option is the DF6, a hydraulically driven power cable pusher that enhances cable installation and ease of use in traditional infrastructures. With 1,350 pounds of push force, this will significantly reduce stress on the cable. We also offer various UG pullers with a wide range of pull forces.

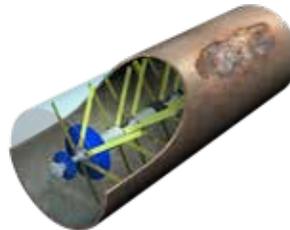

**PRIME RESINS .....#723**  
[www.primeresins.com](http://www.primeresins.com)

Prime Flex 920 is a single-component polyurethane injection resin used to seal gushing leaks, including wide gaps, in concrete where the structure isn't subject to movement. This hydrophobic, super-low-viscosity polyurethane reacts with water and expands to form a closed cell, watertight, rigid foam. Also used for permeation grouting.

**PRO LEASING SERVICES .....#912**  
[www.proleasingservices.com](http://www.proleasingservices.com)

**PURE TECHNOLOGIES, A XYLEM BRAND .....#900**  
[www.xylen.com/en-us/brands/pure-technologies](http://www.xylen.com/en-us/brands/pure-technologies)

Safeguard your critical metallic pipelines with PipeDiver® Ultra. This inline inspection tool collects high-resolution data on pipe wall loss without disrupting water service or complicated civil works. Learn more by joining the session "Trends in Assessing Metallic Water Pipelines," visiting us in booth 900, or going to [xylen.com/pure-technologies](http://xylen.com/pure-technologies).

**PURPLE WAVE AUCTION .....#427**  
[www.purplewave.com](http://www.purplewave.com)

Purple Wave is a full-service auction company that provides personalized service to each seller. Purple Wave supports sellers by marketing their assets, creating professional listings, conducting the sale on the seller's behalf, and collecting payments.

**RAILHEAD UNDERGROUND PRODUCTS LLC .....#810**  
[www.railhead.com](http://www.railhead.com)

Often imitated, never duplicated, "The Original Rock Tool" for the HDD market was designed specifically to drill in rock. The Increditit was first released in 1996 and has become the brand most often referred to as the go-to option when drilling in rock.

**RELINE AMERICA LLC .....#608**  
[www.relineamerica.com](http://www.relineamerica.com)

Reline America is a manufacturer of UV-cured fiberglass reinforced pipe liner and liner curing equipment.

**SEWPER COAT AN IMERYS BRAND .....#616**  
[www.sewpercoat.com](http://www.sewpercoat.com)

SewperCoat® is the ultimate mineral solution for the municipal wastewater industry to provide structural, corrosion-resistant protection against biogenic corrosion relative to hydrogen sulfide (H2S) found in wastewater environments. SewperCoat® is the original 100% calcium aluminate backed product, with a no-nonsense, 10-year labor and materials replacement warranty.

**SIPPTech** ..... #714  
[www.sipptech.com](http://www.sipptech.com)

Manufactured In-Place Composite Pipe (MICP) is an innovative trenchless pipeline rehabilitation system that robotically builds a new structural pipe within the host pipe. NSF 61 approved and up to 250 Psi, MICP offers a cost-competitive solution to rehabilitate large-diameter pipelines with minimal public disruption and minimal loss in system performance.

**SPECIFIED UTILITY ASSOCIATES INC.** ..... #412  
[www.specutil.com](http://www.specutil.com)

**STRUCTURAL TECHNOLOGIES** ..... #532  
[www.structuraltechnologies.com](http://www.structuraltechnologies.com)

Structural Technologies' StrongPIPE® product line is a comprehensive suite of strengthening and protection systems for medium- to large-diameter pipelines. These products repair and renew all types of pipelines, including concrete, metallic and polymer-based. The StrongPIPE® product line can provide solutions in various markets, such as water/wastewater, industrial and nuclear.

**SUBSURFACE INSTRUMENTS INC.** ..... #401  
[www.ssilocators.com](http://www.ssilocators.com)

The All Materials Locator will locate non-conductive (pvc) and conductive infrastructure with the "change of density." SSI's products are proudly made in the U.S.A. and offer an industry-leading warranty. Give us a call at 920-347-1788.

**SUNBELT RENTALS** ..... #816  
[www.sunbeltrentals.com](http://www.sunbeltrentals.com)

Sunbelt Rentals Pump Solutions and Shoring Solutions offers industry-leading expertise and support, customized solutions and more. Regardless of location or project requirements, we're here to keep your job site running safely and smoothly. Whether your job requires temporary bypass pumping, hazardous fluid transfer, dewatering, trench shielding, excavation shoring or anything in between, we've got you covered.

**T.D. WILLIAMSON** ..... #527  
[www.TDWilliamson.com](http://www.TDWilliamson.com)

With its revolutionary connection design, the POLYSTOPP® Quick Connect system makes it easy to safely perform hot tapping, plugging and branching on polyethylene (PE) pipelines – and do it faster than with any other isolation technology. The system is lightweight and simple and uses significantly less excavation space.

**TECHNOGENIA LASERCARB OKLAHOMA** ..... #513  
[www.technogeniaUSA.com](http://www.technogeniaUSA.com)

Technogenia specializes in hard-facing services using our laser cladding technology for wear protection against abrasion, erosion and impact. Coatings include tungsten carbide, diamond, Inconel, Hastelloy, Stellite, stainless steel and many more. Torch-applied welding ropes and powders are produced in our facilities for remote hard-facing application in our customers' shops.

**THE STRONG COMPANY INC.** ..... #607  
[www.strongseal.com](http://www.strongseal.com)

Strong-Seal Systems offer engineered products specifically designed to rehabilitate concrete and masonry structures to stop inflow, infiltration, and exfiltration. The Strong Company, Inc. also offers a fiber-reinforced cementitious mixture designed for rehabilitating corrugated metal pipes, culverts, concrete pipes, catch basins, and other stormwater, better known as Storm Seal.

**THOMPSON PIPE GROUP** ..... #605  
[www.thompsonpipegroup.com](http://www.thompsonpipegroup.com)

Thompson Pipe Group manufactures and supplies pipe for pressure, sanitary/ sewer, and trenchless applications: PCCP, bar-wrapped pipe, steel, fiberglass reinforced pipe (round and non-round), Flowcrete, Meyer Polycrete, steel reinforced polymer concrete, reinforced concrete microtunneling pipe, precast pipe, box and structures, reinforced concrete cylinder pipe, and reinforced concrete non-cylinder pipe.

**TRUMBULL MFG** ..... #913  
[www.Trumbull-mfg.com](http://www.Trumbull-mfg.com)

Trumbull Manufacturing composite manhole frames and covers offer superior corrosion resistance to H2S gas and are lighter weight compared to cast iron. Other benefits include AASHTO H20 & H25 traffic rating and O-ring sealed for water infiltration. Trumbull also offers wall sleeves and Link-Seal® for creating and sealing wall penetrations in concrete vaults and other underground boxes.

**TULSA RIG IRON** ..... #603  
[www.tulsarigiron.com](http://www.tulsarigiron.com)

Tulsa Rig Iron's MCS-330 mud reclaimer is a great pairing for 40K to 60K drills. Featuring a normal cleaning volume of 240 GPM, 2200-gallon tanks, rear discharge shaker, and built as a robust integrated trailer design, this model is a true workhorse.

**UNDERGROUND MAGNETICS** ..... #712  
[www.umaghd.com](http://www.umaghd.com)

As utility easements continue to get more congested, the need to work in these areas with more precision is critical. The Mag X Pro features a solid-core 3D antenna that extends the range in low, sub-kHz frequencies, allowing contractors to continue locating regardless of any active or passive interference.

**UNDERGROUND SUPPLY SOLUTIONS** ..... #507  
[www.ugsupply.com](http://www.ugsupply.com)

We carry the best solutions for your projects including: Melfred Borzall tooling and accessories; DriiRite drilling fluids; Orvil PDC bits, piercing tools, accessories and shovels.

# UIC Exhibitor Showcase

**UNDERGROUND TOOLS INC. ....#915**  
[www.undergroundtools.com](http://www.undergroundtools.com)

Underground Tools, Inc. will be displaying one of the industry's most comprehensive selections of premium quality HDD drill pipe and tooling. HDD tooling includes: sonde housings, pilot bits, backreamers, starter rods and more. Trenching chain and related components (teeth, sprockets and rollers) will also be on display.

**UNI-BELL PVC PIPE ASSOCIATION .....#510**  
[www.pvcpa.org](http://www.pvcpa.org)

PVC pipe has been in service in North America for 70+ years, with more than 2 million miles installed. It's available in sizes up to 60" for open-cut installations and up to 36" for trenchless applications. PVC pipe has the lowest break rates, lowest environmental impact, and one of the highest expected longevities of all commonly used pipe materials in North America.

**UNITED RENTALS .....#600**  
[www.unitedrentals.com](http://www.unitedrentals.com)

United Rentals offers the most advanced, cost-effective, and comprehensive suite of trench protective systems and related products, including shoring, shielding, engineered systems, steel plates, confined space safety equipment, and more. Complete with services such as in-house engineering and industry-leading safety training, we have all your project needs covered.

**WARREN ENVIRONMENTAL .....#512**  
[www.warrenenviro.com](http://www.warrenenviro.com)

Spray-in-place-pipe is an emerging technology that uses high-pressure spraying of durable material (cement mortar, polyurea, or epoxy) to coat the inside of a pipe using a spray head controlled by a computerized spray rig. Warren Environmental will have a spin head and a coated pipe on display during UIC.

**WESTLAKE PIPE & FITINGS .....#501**  
[www.westlakepipe.com](http://www.westlakepipe.com)

For HDD and static pipe bursting projects, get the job done efficiently with AquaSpring™ C900 Certa-Lok® RJIB pipe. It's designed for trenchless applications with robust tensile strength for pulling multiple segments underground. AquaSpring™ C900 Certa-Lok® RJIB pipe is now available in sizes up to 18".
